PROFESSIONAL SUMMARY

Motivated and detail-oriented **MCA postgraduate student at NIET** with strong hands-on capabilities across **Full-Stack Web Development (MERN)**, **AWS Cloud Infrastructure**, **Computer Networking**, and **Linux Administration**. Experienced in building responsive frontends with **React.js**, engineering scalable RESTful APIs with **Node.js & Express**, and managing databases with **MySQL & MongoDB**. Proven experience deploying web applications on **AWS EC2 (Ubuntu Linux)** using **Nginx Reverse Proxy**, configuring custom **VPC architectures**, and training machine learning classification models. A strong analytical problem solver dedicated to delivering robust, user-centric software solutions.

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Noida Institute of Engineering and Technology (NIET), Greater Noida, UP

GPA: 7.6 / 10

Bachelor of Computer Applications (BCA)

2020 – 2023

Babasaheb Bhimrao Ambedkar Bihar University (BRABU), Muzaffarpur, Bihar

Score: 72.08% (Distinction)

Higher Secondary / Intermediate (12th, BSEB)

2018 – 2020

L.N. College, Bhagwanpur, Vaishali / Muzaffarpur, Bihar

Score: 62.2%

Secondary Education / Matriculation (10th, BSEB)

2016 – 2018

U.H.S High School, Ishlampur, Vaishali, Bihar

Score: 58.8%

TECHNICAL SKILLS

- **Programming Languages:** Java (Core & OOPs), Python, JavaScript (ES6+), C, SQL
- **Full Stack & Web Tech:** React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Bootstrap, RESTful APIs, JSON
- **Cloud Infrastructure (AWS):** Amazon EC2, S3 (Static Hosting & Storage), RDS (MySQL), VPC, IAM Roles & Policies, Security Groups, Route 53, Elastic IP
- **Networking & Protocols:** VPC Architecture, Subnets (Public/Private), CIDR, Internet Gateway, NAT Gateway, Route Tables, TCP/IP, DNS, SSH, HTTP/HTTPS
- **Linux & System Tools:** Linux Administration (Ubuntu), Bash Shell Scripting, File Permissions & Users (chmod, chown, useradd, groupadd), Nginx (Reverse Proxy), PM2, Git, GitHub, VS Code, Postman
- **Databases & AI Tools:** MySQL, MongoDB (Mongoose ODM), Relational Database Design, LangChain, CrewAI, Machine Learning (CNN)
- **Core CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming (OOPs), Computer Networks, Operating Systems, DBMS

PROJECTS

1. Online Course Management & Full-Stack Learning Platform

[React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS]

- Engineered an end-to-end full-stack educational web platform designed to host, manage, and deliver interactive courses to students and professionals.
- Implemented Role-Based Access Control (RBAC) with tailored portals and dashboards for Admin, Instructor, and Student.
- Integrated course tracking, live class scheduling, media management, and secure token-based JWT authentication.
- Engineered scalable backend RESTful APIs using Express.js and structured MongoDB schemas with Mongoose ODM validation.

2. AWS 3-Tier Enterprise Web Application & Cloud Infrastructure

[AWS EC2, VPC, Nginx Reverse Proxy, MySQL RDS, S3, Linux Bash]

- Architected and deployed a multi-tier web application architecture on AWS EC2 (Ubuntu Linux) fronted with Nginx Reverse Proxy for load distribution.
- Designed a custom AWS VPC with isolated Public and Private Subnets across availability zones, configuring Internet Gateway (IGW) and least-privilege Security Groups.
- Configured Amazon S3 for centralized cloud media uploads and Amazon RDS (MySQL) for secure data storage.
- Automated server initialization and dependency installations using Linux Bash UserData scripts.

3. Handwritten Character Recognition System (Machine Learning)

[Python, Convolutional Neural Networks (CNN), OpenCV, NumPy]

- Designed and trained a Convolutional Neural Network (CNN) model in Python for handwritten character recognition and classification.
- Applied extensive image data preprocessing, normalization, grayscale conversion, and hyperparameter tuning to optimize classification accuracy and minimize validation loss.

4. Digital Menu Card (Digi-Menu Card)

[HTML5, CSS3, JavaScript, QR Code Integration, Responsive UI]

- Designed and developed a responsive digital menu application accessible via QR code scan on both mobile and desktop devices.
- Engineered seamless category filtering, intuitive touch-friendly navigation, and zero-dependency fast page loading for dining customers.

CERTIFICATIONS & EXTRACURRICULAR ACTIVITIES

▶ **Java Concepts Certification** — Infosys Springboard

▶ **Full Stack MERN Web Development** — Specialized Coursework

▶ **Hackathons & Coding:** Active participant in college-level hackathons and coding competitions.

▶ **TechA Web Designing Foundation Certification** — Infosys Springboard

▶ **AWS Cloud Foundations & Linux Networking** — Practical Training

▶ **1st Position** in Inter-School Racing / Athletic Competition.
